Step 1. Update Your Home Page

Go to your WordPress page and edit your Home page in ThriveArchitect. Update the text and graphics on the page to reflect your business. Make sure everything looks great on both desktop & mobile. Edit font sizes, spacing if need be. Then save your page.

Note: Make sure to edit the mobile version of your Home page as well as there are certain elements that are not visible when just looking at the desktop version.

Step 2. Update Your Tripwire Page

Go to your WordPress page and edit your Tripwire page in ThriveArchitect. Update the text and graphics on the page to reflect your business. Make sure everything looks great on both desktop & mobile. Edit font sizes, spacing if need be. Then save your page.

Note: Make sure to edit the mobile version of your Tripwire page as well as there are certain elements that are not visible when just looking at the desktop version.

Step 3. Update Your Help Page

Go to your WordPress page and edit your Help page in ThriveArchitect. Update the text and graphics on the page to reflect your business. Make sure everything looks great on both desktop & mobile. Edit font sizes, spacing if need be. Then save your page.

Step 4. Update Your Terms Page

SUBSCRIPTION SCHOOL

Go to your WordPress page and edit your Terms page in ThriveArchitect. Update the text and graphics on the page to reflect your business. The only thing you should need to change are your company name / details. Make sure everything looks great on both desktop & mobile. Then save your page.
